Special Meeting Theme: The PAS Congress Scientific Program Committee has selected a theme that is highlighted throughout the meeting. This year's theme, *Movement Disorders Across the Americas: Translating Science to Clinical Practice* will be showcased in two Plenary Sessions, one Parallel Session and one Skills Workshop. Themed sessions are designated in the program with .

Dear Colleagues,

Please join us June 22-24, 2018 in Miami, FL, USA for the **2nd Pan American Parkinson's Disease and Movement Disorders Congress**.

As a result of the rapid growth of the MDS Pan American Section (MDS-PAS), there is the need for a forum to discuss relevant issues in the field of Movement Disorders, specific to the Pan American Section. Attendees of the 1st PAS Congress agreed this is a tremendous opportunity for MDS-PAS members to network with colleagues from different parts of Pan America.

Join us to:

- Facilitate communication between clinicians and researchers in the region
- Disseminate updated knowledge about movement disorders
- Improve quality of life and independence of movement disorders patients and caregivers
- Promote research in movement disorders within the region
- Expose clinicians, researcher and healthcare professionals in the region to movement disorders initiatives and in so doing, encourage their membership in the MDS-PAS

Please visit www.pascongress2018.org to learn more about this tremendous event.

Warmest regards,

Cynthia Comella
Chair, PAS Congress Scientific Program
Committee
Chair-Elect, MDS Pan American Section

Henrique Ferraz
